

## European Young Investigator Awards (EURYI): Third Call for Applications

The European Heads of Research Councils (EUROHORCS), wishing to contribute to the building of the European Research Area, joined in collaboration with the European Science Foundation (ESF) in creating the **European Young Investigator Awards (EURYI)** in 2003. The aim of EURYI is to encourage and enable outstanding young researchers from all over the world to work in Europe to benefit the development of European science and to build up the next generation of leading European researchers. For more details on the scheme, see [www.esf.org/euryi](http://www.esf.org/euryi) (URL: [http://www.esf.org/esf\\_genericpage.php?section=8&language=0&genericpage=1879](http://www.esf.org/esf_genericpage.php?section=8&language=0&genericpage=1879)).

We are pleased to announce the **third call for applications**, which is **open to young researchers from anywhere in the world** holding a doctoral degree who have 2 - 8 years of postdoctoral experience at the closing date of the call (**30 November 2005**), taking into account career breaks. The call is available at [www.esf.org/euryi](http://www.esf.org/euryi).

The scheme especially encourages foreign researchers to come to Europe and European researchers who have been working outside of Europe to return. EURYI Awards promote scientific excellence, with wide international recognition, by supporting these distinguished researchers to develop and pursue an independent research career, including the development of a research group where appropriate, aimed at opening up new lines of research including novel methodologies.

If your email address has changed, or you no longer wish to adhere to the social sciences mailing list, send an email to [scss@esf.org](mailto:scss@esf.org) (*give both old and new email addresses so that we can easily deal with your request*).
